#### [Why Choose New Horizons?](#)

#### [Contact Us](#)

New Horizons is proud to be an Authorized Learning Partner with EC-Council, the world's largest cybersecurity technical certification body. EC-Council aims to increase the skillset of security professionals by introducing ground-breaking curriculums that teach you how to view your network through the eyes of a hacker, track digital footprints through forensics, apply penetration tests, and securely code.

EC-Council provides training for every member of your security team, and your end-user community, to help prevent and respond to your next cybersecurity incident.

### Cybersecurity Awareness Training

#### EC-Council Certified Secure Computer User (CSCU)

This course is aimed at end users in order to educate them about the main threats to their data's security to keep their devices and data secure in daily life.

2 Days | \$1095 USD

### Cybersecurity Technician

#### EC-Council Certified Cybersecurity Technician (CCT)

Upon completing the program, CCT-certified professionals will have a strong foundation in cybersecurity principles and techniques as well as hands-on exposure to the tasks required in real-world jobs.

5 Days | \$3495 USD

### Core Skills and Ethical Hacking

#### EC-Council Certified Network Defender (CND)

This course prepares network administrators on network security technologies and operations to attain Defense-in-Depth network security preparedness.

5 Days | \$3495 USD

#### EC-Council Certified Ethical Hacker (CEH) v12

CEH provides an in-depth understanding of ethical hacking phases, various attack vectors, and preventative countermeasures. This course will teach you how to think like a hacker to best protect your network.

5 Days | \$3495 USD

#### EC-Council Ethical Hacking Essentials (EHE)

Ethical Hacking Essentials is an introductory cybersecurity course that covers ethical hacking and penetration testing fundamentals and prepares learners for a career in cybersecurity.

2 Days | \$1095 USD

### Incident Handling Training

#### EC-Council Certified Incident Handler (ECIH)

The course addresses various underlying principles and techniques for detecting and responding to current and emerging computer security threats.

3 Days | \$1799 USD

#### EC-Council Computer Hacking Forensics Investigator (CHFI) v10

CHFI presents a detailed and methodological approach to digital forensics and evidence analysis that also pivots around Dark Web, IoT, and Cloud Forensics.

5 Days | \$3495 USD

#### EC-Council Digital Forensics Essentials (DFE)

This course will introduce learners to Computer Forensics Fundamentals as well as the Computer Forensics Investigation Process.

2 Days | \$1095 USD

### Network and Cloud Defense Training

#### EC-Council Certified Threat Intelligence Analyst (CTIA)

The Certified Threat Intelligence Analyst (CTIA) program is designed and developed in collaboration with cybersecurity and threat intelligence experts across the globe.

3 Days | \$2097 USD

#### EC-Council Certified SOC Analyst (CSA)

This course thoroughly covers the fundamentals of SOC operations, before relaying the knowledge of log management and correlation, SIEM deployment, advanced incident detection, and incident response.

3 Days | \$2097 USD

#### EC-Council Certified Cloud Security Engineer (CCSE)

CCSE is a hands-on learning certification course that adopts a detailed and methodological approach to teaching the fundamental concepts of cloud security.

5 Days | \$3495 USD

#### EC-Council Threat Intelligence Essentials (TIE)

This program aims to enhance your understanding and implementation of foundational threat intelligence concepts

2 Days | \$1095 USD

#### EC-Council SOC Essentials (SCE)

The SOC Essentials (SCE) Series is designed for security professionals and freshers to enhance their skills and knowledge about essential security technologies.

2 Days | \$1095 USD

#### EC-Council Network Defense Essentials (NDE)

Network Defense Essentials covers the fundamental concepts of information security and network defense.

2 Days | \$1095 USD

#### EC-Council IoT Security Essentials (ISE)

EC-Council's IoT Security Essentials Series provides comprehensive coverage of essential topics in securing Internet of Things (IoT) systems.

#### EC-Council Cloud Security Essentials (CSE)

This course will provide you with the skills that you need to understand the foundational and essential aspects of Cloud Security.

2 Days | \$1095 USD

2 Days | \$1095 USD

### Pen Testing Training

#### EC-Council Certified Penetration Tester (CPENT)

This course teaches you how to perform an effective penetration test in an enterprise network environment that must be attacked, exploited, evaded, and defended.

5 Days | \$3495 USD

### Application Security Training

#### EC-Council Certified Application Security Engineer (CASE).NET

The CASE credential tests the critical security skills and knowledge required throughout a typical software development life cycle (SDLC).

3 Days | \$2097 USD

#### EC-Council DevSecOps Essentials (DSE)

The DevSecOps Essentials program will provide you with the foundation knowledge and essential aspects of secure application development, or DevSecOps.

2 Days | \$1095 USD

### Executive Leadership Training

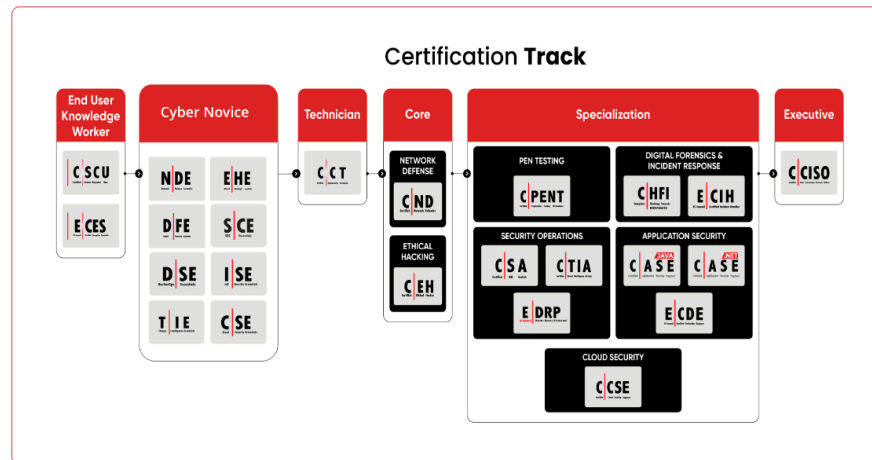

#### EC-Council Certified Chief Information Security Officer (C-CISO)

The CCISO Certification is an industry-leading program that recognizes the real-world experience necessary to succeed at the highest executive levels of information security.

4 Days | \$3495 USD

## EC-Council Certification

EC-Council offers a wide range of highly respected and sought-after certifications to grow your cybersecurity career. Download our [EC-Council Certification Roadmap](#) and review the following to determine your ideal certification path.

### Cybersecurity Awareness

Gain a fundamental understanding of different computer and network security threats.

[Certified Secure Computer User \(CSCU\)](#)

### Core Skills

Protect your digital assets by detecting and responding to cyber threats while also thinking like a hacker to predict attacks before they happen.

[Certified Network Defender \(CND\)](#)

[Certified Ethical Hacker \(CEH\)](#)

### Cybersecurity Technician

Become a certified professional with a strong foundation in cybersecurity principles and techniques.

[Certified Cybersecurity Technician \(CCT\)](#)

### Incident Handling

Responding properly to a security incident is crucial to quickly recovering assets. Look into these certifications to further your career in the area of incident handling.

[Certified Incident Handler \(ECIH\)](#)

[Computer Hacking Forensic Investigator \(CHFI\)](#)

### Application Security

Understand how to implement security best practices throughout the Software Development Lifecycle.

[Certified Application Security Engineer \(CASE\).NET](#)

### Network and Cloud Defense

Focus on these certifications if your job is to properly safeguard your network from cyberattacks in real-time.

[Certified Threat Intelligence Analyst \(CTIA\)](#)

[Certified SOC Analyst \(CSA\)](#)

[Certified Cloud Security Engineer \(CCSE\)](#)

### Penetration Testing

Master the art of identifying potential exploits and areas of your environment that need protecting.

[Certified Penetration Tester \(CPENT\)](#)

### Executive Leadership

Are you in a C-Level position? Get certified and improve your ability to bridge the gap between executive management skills and technical knowledge.

[Certified Chief Information Security Officer \(C-CISO\)](#)

### Why Choose New Horizons for Your EC-Council Training?

✓ **Authorized Training Partner**

New Horizons is an authorized training partner with EC-Council. That means that our certified subject matter experts only deliver content authorized by EC-Council to best prepare you for your certification exam.

✓ **Private Group Training**

Let our world-class instructors come to you to deliver training at your place of business or we can present to your team online using our Virtual Instructor-Led Training platform. Unify your team's learning experience by scheduling a Private Group Training session. [Contact Us](#) to get started.

✓ **Custom Training Solutions**

Make sure your business objectives are being met by customizing the class to specifically address your needs. Our subject matter experts can customize the class to specifically address the unique goals of your team.

✓ **Free Re-Takes**

Most completed New Horizons courses carry our unbeatable Learning Guarantee. This guarantee allows students to repeat most courses, if they are the same version, FREE OF CHARGE, within six months of course completion. Exceptions: Cisco, Citrix, VMware, Red Hat, and courses provided by affiliated 3rd party training providers.

✓ **Guaranteed to Run Schedule**

Schedule your Guaranteed to Run (GTR) class with confidence. Choose from hundreds of GTR dates across a diverse catalog of course titles and never worry about your class cancelling at the last minute.
